EXPERIENCE

Designing Head The Electronix Club - SNIST	2024 - 2025
<ul style="list-style-type: none">• I work closely with the club's design posters, banners, and other promotional materials.• I also play a role in creating visually appealing presentations, slideshows, and multimedia content for club meetings.	

PROJECTS

COLLEGE INFORMATION CHATBOT SYSTEM: It is a digital tool designed to assist students, faculty, and staff within a college or university environment. It leverages natural language processing (NLP) and artificial intelligence (AI) technologies to provide users with relevant information and support in various aspects of college life.

PHARMACEUTICAL DATA MANAGEMENT WEBSITE: The primary object of the pharmaceutical data website is to create an online web portal capable of managing product information from distribution worldwide. This website aims to automate the drug supply process for pharmaceutical companies and enhance business practices and customer interactions. Through these applications, customers can access comprehensive details about drugs through their personal accounts.

KEY STRENGTHS

- **Independent Work Capability:** Self-motivated with strong problem-solving methodology
- **Analytical Thinking:** Proven ability to identify edge cases and potential system vulnerabilities
- **Communication Skills:** Effective written and verbal communication for defect reporting and stakeholder interaction
